Cardiff MRCS Course (Dubai, UAE)
Structured Revision Course for
MRCS Part A
(For UK Royal College Exams)

Grand Excelsior Hotel Bur Dubai,Dubai 31st July - 1st August 2019

Course Overview

Basic sciences such as anatomy, physiology, pathology and microbiology are essential for developing a strong foundation in surgical training and for the understanding of its clinically applied aspects. As such, these subjects form an integral part in the MRCS A exam.

The course takes into consideration the recent changes to the MRCS A exam with more emphasis on basic sciences - especially anatomy.

Delegates attending this course will receive full access to MRCS Part A online educational resources from www.doctorexams.co.uk for a 4-month period. This resource contains 100s of SBA questions for practice.

This intensive 2-day course will provide the delegate with an overview of basic physiological principles, consolidate the candidate's core and applied surgical knowledge in anatomy and relevant pathology, and provide a focused revision of pertinent topics as tested in the exam.
